President's Message

On behalf of the Bonspiel Committee I would like to welcome all the participants to the 63rd annual bonspiel.

Some of the events associated with the bonspiel are:

- Breakfast Saturday morning at the Calgary Curling Club, Northhill Curling Club and the Acadia Recreation Complex.
- Breakfast sandwich Sunday morning at the Calgary Curling Club.
- Curler's Caper Saturday Night at the Red & White Club- North of McMahon Stadium.
- \$1000.00 Bulls-eye Shootout Competition.

A huge thank you to all our event sponsors, donors and advertisers, without which we could not maintain the quality of this event.

I would like to offer a personal thank you to the members of the Bonspiel Committee for their dedication and hard work in organizing this Bonspiel and ensuring its success.

Please take the opportunity to meet and mingle with all of the participants and enjoy yourself. I would request that if you agree, that this is a quality event, you encourage other people that you know, work with, or curl with to get involved in future years. We need the curlers participating to be an advertisement for this event to get new teams involved.

Best of luck to all and good curling

Thank you

Prize Draws

The Bonspiel Committee Thanks the Following Door Prize Donors:

Candor Engineering & Consulting Ltd.

Curlers Corner

National Oilwell Varco

Superior Propane

WorleyParsons

A special Thank You to DG Valve Systems for sponsoring the Saturday morning breakfast.

A special Thank You to TORQ Transloading for sponsoring the Registration Night beverages.

Bonspiel Rules

This Bonspiel shall be governed by the “Rules of Curling for General Play” from current edition of the official “Curling Rule Book” published by the Canadian Curling Association. Specifically, the Four Rock, Free Guard Zone Rule applies.

Rules Pertaining Specifically to This Bonspiel

1. If a competing rink is not ready to commence play at the time named for the beginning of the match, one end must be counted as played for every ten minutes delay, and the opposing rink, if ready to play, shall score one point for each ten minute period they have been kept waiting. The team that has been kept waiting will have last rock on the first end played. At the end of one half hour the game will be forfeited.
2. All games including the finals will be eight ends. Tied games will be decided by playing “Skip Rocks”, except for elimination games (elimination games are all games played on Saturday and Sunday, all prior games are NOT elimination) which will be decided by extra end(s). The “Skip Rocks” end shall be played in the following manner: the team who tied the game will play first. One rock with normal sweeping will be allowed, but there is to be no sweeping by the opposition behind the Tee Line. The skip’s rock finishing in the house and closest to the button will be declared the winner. If neither rock finishes in the house the skips will repeat the end until a winner is decided.
3. Teams to consist of any combination of male and female “Oil Patch” personnel and may if desired consist of one (1) non “Oil Patch” member (male or female) who must play lead or second, if desired this individual may call the game, that is skip, and play lead or second in the delivery rotation. Any team found to have a designated “Oil Patch” member that is not connected to the oil industry under the website listed “Entry Eligibility Requirements”

Bonspiel Rules

specified on the “Entry Registration Form” will be disqualified at any stage in the Bonspiel with forfeiture of the entry fee.

The Bonspiel Committee reserves the right to rule on all eligibility matters.

4. A full rink of four eligible players must be registered. If a member through sickness or other unforeseen circumstances is unable to begin a game, then three members of the team may play. No rink shall play with less than three eligible players. In the case of a three player team, the first two players will deliver three stones each.
5. Substitute Player(s) who have not played for another team in the Bonspiel may join a rink without registering the change with the Drawmaster. Substitute Player(s) who join a rink permanently must register the change with the Drawmaster. Substitute(s) must not play in any capacity other than lead or second. The original player(s) may rejoin the team at any time and may assume his regular position(s). A maximum of two substitutes is allowed.
6. A team may declare a new rotation of play at the beginning of any game. Substitute Player(s) must remain at either lead or second.
7. All team disputes must be resolved by the teams involved.
8. Upon the submission of a Bonspiel entry, including any subsequent amendments thereof, all players listed on the entry and in this Program, understand that they are agreeing that all information tendered or photos obtained as part of any Bonspiel event, may be used for any internal purposes of this Alberta Oilmen’s Bonspiel Association.

All score cards must be signed by each Skip or Third and given to an Official immediately upon completion of the game.

1620, 540 - 5 Avenue SW, Calgary, Alberta T2P 0M2

A hand in a blue work shirt sleeve holds a miniature, detailed model of an oil drilling rig. The rig is blue and yellow, with a grey drill pipe extending downwards. The background is a light grey gradient with several circular, metallic-looking holes scattered across the bottom half of the page.

Predictable Quality

In a perfect world every well would be the same. You would know exactly what to expect in time and expense.

Well the world is not perfect yet, but Nabors is taking some big steps in that direction. Our sophisticated rigs, experienced crews and state-of-the-art technology like ROCKIT[®] and REVit[™] are drilling well after well in remarkably similar fashion.

This is especially true in the various shale plays where our experience on previous wells in the area allows us to repeat success. It also allows us to anticipate trouble spots and avoid them.

That all adds up to wells drilled with predictable quality. Call Nabors today at 1.800.386.1830 and see just how predictable that quality can be.

Nabors: Still setting the PACE[®].
